

BXT2-25/32 Battery Powered Combination Tool for Polyester Strapping

Easy to operate

With simple two-button operation and high speed take-up, the BXT2-25/32 simplifies operation. Automatic mode offers fast, one-button tensioning and sealing.

Versatile design

The BXT2-25/32 features a standard and low tension adjustment with manual, semiautomatic or automatic operation. An optional suspension bracket enhances operation in stationary applications.

Low maintenance

The brushless motor allows for less wear and longer tool life along with the lithium-ion technology providing increased battery life.

Specifications

Strapping: For use with 1" and 1-1/4" (25 mm and 32 mm) High-strength Tenax® polyester strapping

Tension rating: Standard tension: 551 to 1,430 lbs. (2 500-6 500 N); Low (soft) tension: 220-1,100 lbs. (1 000 to 5 000 N)

Weight: 14.3 lbs. (6.5 kg)
