

EP-3065

HD Cobra Strapping Dispenser for Steel or Poly

Smooth Dispensing!

The HD Cobra Strapping Dispenser is a stationary unit that can be mounted to the floor or table. The unit has two versions, the EP-3065-PS is made for Poly Strapping while the EP-3065-SS is for Steel Strapping. The EP-3065 has a feeding tube allows for easy directing of thick steel or poly strapping ranging from $\frac{3}{4}$ " to $1\frac{1}{4}$ ". It also aids in reaching low set steel and poly coils by dispensing them at waist-level, preventing risk of back injury.

Features include:

- Ribbon Wound (EP-3065-SS), Oscillated Wound (EP-3065-PS)
- Made in the USA
- Steel strapping (EP-3065-SS), Poly strapping (EP-3065-PS)
- For heavy-duty use
- Quick load system

EP-3065-PS (Poly Strapping)

EP-3065-SS (Steel Strapping)
