

Wrap Stick

EP-790 Assembly Instructions

EP-790 Featured Parts

EP-790 Parts List

ITEM NO.	PART NO.	DESCRIPTION
1	E790-05-23	Bottom Disc
2	E790-03	Quarter Turn Knob
3	E790-11	Quick Release Pin
4	E790-06	Slide Grip Handle
5	E790-04	Tension Knob
6	E790-02	Tube Extension
7	E790-01-XL	Tube Handle

INSTRUCTIONS

1. Remove *quick release pin* and insert *tube extension* into *tube handle*.
When *tube extension* is the same height as the stretch film roll, replace *quick release pin*. Use the *tension knob* to adjust, if needed.
 2. Push down and twist *quarter turn knob* to the left until it releases.
Slide stretch film roll over *tube extension* and place *bottom disc* on top.
In order to secure, push down and twist *quarter turn knob* to the right until mechanism locks.
 3. Twist *tension knob* to the right until it comes in firm contact with *slide grip handle*.
- Note: To remove your stretch film roll, *tension knob* must be released before *quarter turn knob* can be removed.

EP-790 Wrap Stik

Proper Pallet Wrapping in Seconds!

The *Wrap stick* is designed to accelerate the pallet wrapping process while reducing work related injuries.

Its 35 1/2" - 48 1/2" lightweight handle and solid construction, aids in low-to-high wrapping jobs – protecting workers from strain/injury to the back, shoulders, wrists, and hands.

The *Wrap Stik* comes in two sizes:

- EP-790 | 35 1/2" handle
- EP-790XL | 35 1/2" - 48 1/2" adjustable handle

Other features include:

- **Made in the USA**
- Increases warehouse safety
- Holds film rolls 10" - 24"
- Accommodates all core sizes
- Weighs less than 5 lbs
