Motorized Ring Wrapper Deluxe

Bundles Large and Long Objects with Ease!

Measuring 36" in diameter, the Motorized Ring Wrapper Deluxe is designed to encircle and securely bundle large objects (e.g. doors, packages, small furniture), as well as long objects (e.g. aluminum or wood extensions, door frames, piping, lumber). The Deluxe unit includes an adjustable motor, allowing you to customize the speed at which the ring wrapper runs. The film roll mechanism has a tension adjustable middle ring, which holds only 12" standard film or pre-stretch rolls. The unit can be moved easily via forklift.

Features:

- Max box size: 24 x 24"
- Unit Weight: ~500 lbs
- Holds only 12" film rolls (standard film or pre-stretch rolls)
- Tension adjustable
- Foot pedal or button operated
- Adjustable RPM
- Unit comes with stand
